## Sex Allocation (Monographs in Population Biology) Stuart West

Recent decades have witnessed an explosion of theoretical and empirical studies of sex allocation, transforming how we understand the allocation of resources to male and female reproduction in vertebrates, invertebrates, protozoa, and plants. In this landmark book, Stuart West synthesizes the vast literature on sex allocation, providing the conceptual framework the field has been lacking and demonstrating how sex-allocation studies can shed light on broader questions in evolutionary and behavioral biology.

West clarifies fundamental misconceptions in the application of theory to empirical data. He examines the field's successes and failures, and describes the research areas where much important work is yet to be done. West reveals how a shared underlying theoretical framework unites findings of sex-ratio variation across a huge range of life forms, from malarial parasites and hermaphroditic worms to sex-changing fish and mammals. He shows how research on sex allocation has been central to many critical questions and controversies in evolutionary and behavioral biology, and he argues that sex-allocation research serves as a key testing ground for different theoretical approaches and can help resolve debates about social evolution, parent-offspring conflict, genomic conflict, and levels of selection.

Certain to become the defining book on the subject for the next generation of researchers, *Sex Allocation* explains why the study of sex allocation provides an ideal model system for advancing our understanding of the constraints on adaptation among all living things in the natural world.

### **From reader reviews:**

#### **Raymond Roth:**

As people who live in the particular modest era should be upgrade about what going on or info even knowledge to make all of them keep up with the era that is always change and progress. Some of you maybe will probably update themselves by reading through books. It is a good choice for you personally but the problems coming to an individual is you don't know which you should start with. This Sex Allocation (Monographs in Population Biology) is our recommendation to help you keep up with the world. Why, since this book serves what you want and want in this era.

#### **Kenneth Poor:**

The publication with title Sex Allocation (Monographs in Population Biology) includes a lot of information that you can learn it. You can get a lot of advantage after read this book. This particular book exist new information the information that exist in this publication represented the condition of the world right now. That is important to yo7u to understand how the improvement of the world. This specific book will bring you with new era of the internationalization. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

#### **Rhonda Joiner:**

Reading a book for being new life style in this year; every people loves to examine a book. When you examine a book you can get a great deal of benefit. When you read books, you can improve your knowledge, since book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you would like get information about your review, you can read education books, but if you want to entertain yourself you can read a fiction books, such us novel, comics, and soon. The Sex Allocation (Monographs in Population Biology) offer you a new experience in reading a book.

#### **Naomi Dillon:**

Don't be worry should you be afraid that this book will certainly filled the space in your house, you can have it in e-book approach, more simple and reachable. This specific Sex Allocation (Monographs in Population Biology) can give you a lot of close friends because by you investigating this one book you have matter that they don't and make you more like an interesting person. This kind of book can be one of one step for you to get success. This guide offer you information that perhaps your friend doesn't know, by knowing more than various other make you to be great individuals. So , why hesitate? We should have Sex Allocation (Monographs in Population Biology).
