Iran and the West (Volume 2) Cyrus Ghani

Iran and the West is a critical bibliography of over 4000 books, articles, journals, and catalogs about Iran written in Western languages and published from 1500 up to the late 1980s. The author, scholar and collector Cyrus Ghani, who collected books for more than 40 years, has written a personal commentary for each entry. Some entries are brief factual annotations while for others such as biographies, autobiographies and books about modern Iranian history and politics, Ghani has made lengthy and erudite comments demonstrating his broad knowledge of Iranian and world history as well as his cultivated moral intelligence. *Iran and the West* is a useful reference book that brings together a vast array of cross-discipline writing about Iran, including some books and articles whose titles would not make them obvious candidates. It is not only an indispensable tool for scholars and researchers of Iranian studies; it also provides a wealth of fascinating information that will reward any reader who dips into it. This paperback edition has been published in two volumes: Volume 1, Books; Volume 2, Articles, Journals, and Catalogs.
