**The Voyages Of The Seven (The Star Agency Chronicles Book 2) R.E. Weber**

**The Seven: the first wave of humanity among the stars.**

Theopolis James Logan is finally living his long-cherished dream. Whisked away from his mundane life on Earth - along with six other gifted teenagers - by an alliance of peaceful, alien civilisations known as The Affinity, he has forged a life of excitement and wonder on another world. To his friends, he is a technical specialist, adept in the use of super-advanced technology. However, in secret, he is a covert operative for The Star Agency: the Affinity's secret service, defending the galaxy against the shadowy forces of the Metah Dah, the Affinity's sworn enemy.

For centuries, the Star Agency has helped maintain a fragile peace, but when a devastatingly powerful secret weapon is lost, presumed stolen, it sets in motion a chain of events, pushing the Affinity towards the brink of war and plunging the seven human friends into a nerve-shredding battle for survival. Can they survive in a universe more dangerous and unpredictable than they can possibly imagine, or will the dark forces of the enemy triumph, tearing the Affinity apart?

**Meanwhile, back on Earth, an old friend is looking for answers.**

The Voyages Of The Seven is the second exciting adventure in the Star Agency Chronicles - an Interstellar secret agent adventure series suitable for young and old alike. If you think you know science fiction, think again.
