Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic)

Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic)

Arising from a special session held at the 2010 North American Annual Meeting of the Association for Symbolic Logic, this volume is an international cross-disciplinary collaboration with contributions from leading experts exploring connections across their respective fields. Themes range from philosophical examination of the foundations of physics and quantum logic, to exploitations of the methods and structures of operator theory, category theory, and knot theory in an effort to gain insight into the fundamental questions in quantum theory and logic. The book will appeal to researchers and students working in related fields, including logicians, mathematicians, computer scientists, and physicists. A brief introduction provides essential background on quantum mechanics and category theory, which, together with a thematic selection of articles, may also serve as the basic material for a graduate course or seminar.

From reader reviews:

Annie Hendricks:

Typically the book Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic) has a lot of information on it. So when you check out this book you can get a lot of advantage. The book was written by the very famous author. This articles author makes some research prior to write this book. This book very easy to read you can get the point easily after looking over this book.

Margaret Walker:

You are able to spend your free time to study this book this e-book. This Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic) is simple bringing you can read it in the playground, in the beach, train along with soon. If you did not have much space to bring the particular printed book, you can buy often the e-book. It is make you better to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Bessie Hall:

Many people spending their time by playing outside having friends, fun activity having family or just watching TV all day every day. You can have new activity to spend your whole day by looking at a book. Ugh, do you think reading a book can definitely hard because you have to bring the book everywhere? It all right you can have the e-book, delivering everywhere you want in your Smartphone. Like Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic) which is getting the e-book version. So , try out this book? Let's notice.

Judy Yelle:

Don't be worry in case you are afraid that this book will probably filled the space in your house, you can have it in e-book way, more simple and reachable. That Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic) can give you a lot of close friends because by you looking at this one book you have thing that they don't and make you actually more like an interesting person. This kind of book can be one of one step for you to get success. This guide offer you information that possibly your friend doesn't understand, by knowing more than additional make you to be great people. So , why hesitate? Let's have Logic and Algebraic Structures in Quantum Computing (Lecture Notes in Logic).
