Emergent Semantics (Computer and Communication Sciences)

Philippe Cudre-Mauroux

Emergent Semantics (Computer and Communication Sciences) Philippe Cudre-Mauroux

Peer-to-peer systems are evolving with new information-system architectures, leading to the idea that the principles of decentralization and self-organization will offer new approaches in informatics, especially for systems that scale with the number of users or for which central authorities do not prevail. This book describes a new way of building global agreements (semantic interoperability) based only on decentralized, self-organizing interactions.
