Seeing Sociology in Everyday Life

Sociology, 15/e empowers students to see the world around them through a sociological lens, helping them better understand their own lives.

The text is written to help students find and use the science of social behavior in everyday life. John Macionis takes students step-by-step through the theories and research that make up the discipline of sociology. This narrative, along with a global perspective, makes for an accessible and relevant introduction to sociology.

MySocLab is an integral part of the Macionis learning program. In concert with the main text, it helps readers build their critical thinking skills while learning the fundamentals of sociology. Engaging activities and reliable assessments provide a digital learning system that helps students succeed in the course. With MySocLab, students can watch the latest entries in the Core Concept Video Series in sociology, explore real-world data through the new Social Explorer, and develop critical thinking skills through facilitated writing activities.
