Moving Millions: Transport Strategies for Sustainable Development in Megacities (Alliance for Global Sustainability Bookseries) F. Moavenzadeh, M.J. Markow

Covering a topic of massive contemporary importance, this well written volume demonstrates how transportation strategy and environmental sustainability can be pursued in a comprehensive and harmonious, rather than unconnected and potentially conflicting, set of public policies. It applies lessons from several urban areas (e.g., Bogota, Singapore, Mexico City, Sao Paulo), including "success stories" and less successful "hard-won lessons", to a case study in Guangzhou.
