Neuroimaging Research in Geriatric Mental Health

Neuroimaging Research in Geriatric Mental Health

This volume examines the state-of-the-art in our understanding of the aging brain through the application of brain imaging techniques of neuroscience to the geriatric population. By exploring the neurobiological aspects of geriatric mental health, scientists can begin to understand why abnormal aging happens and what can be done to treat it.

Researchers in the fields of geriatric psychiatry, cognitive neuropsychology, neurology, neuroradiology, and physics have combined their expertise to present this accessible, compact review of the field. The chapter authors discuss the use of image modalities and what they can tell us about the aging brain; and present cutting-edge information on image processing and data analysis in the context of geriatric populations. With this book, both novice and seasoned investigators can gain fresh, new insight into geriatric mental health.

- The use of MRI (magnetic resonance imaging), MRS (magnetic resonance spectroscopy), and other modalities with geriatric populations
- Single photon emission computed tomography) and PET (positron emission tomography) to geriatric mental health
- Structural brain changes associated with normal aging
- Functional neuroanatomy of aging and cognition
- Brain structural and functional correlates of Alzheimer's dementia and mild cognitive impairment
- Neuroimaging in late-life schizophrenia

From reader reviews:

Adelina Thompson:

What do you regarding book? It is not important along? Or just adding material when you require something to explain what the one you have problem? How about your free time? Or are you busy individual? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Every individual has many questions above. The doctor has to answer that question because just their can do in which. It said that about book. Book is familiar on every person. Yes, it is right. Because start from on pre-school until university need that Neuroimaging Research in Geriatric Mental Health to read.

Stephen Comerford:

Do you one of people who can't read satisfying if the sentence chained within the straightway, hold on guys this particular aren't like that. This Neuroimaging Research in Geriatric Mental Health book is readable simply by you who hate those straight word style. You will find the facts here are arrange for enjoyable looking at experience without leaving also decrease the knowledge that want to deliver to you. The writer associated with Neuroimaging Research in Geriatric Mental Health content conveys the idea easily to understand by many individuals. The printed and e-book are not different in the content but it just different in the form of it. So , do you nevertheless thinking Neuroimaging Research in Geriatric Mental Health is not loveable to be your top record reading book?

Kimberley Bailey:

The e-book untitled Neuroimaging Research in Geriatric Mental Health is the e-book that recommended to you to read. You can see the quality of the publication content that will be shown to anyone. The language that creator use to explained their ideas are easily to understand. The copy writer was did a lot of analysis when write the book, hence the information that they share to your account is absolutely accurate. You also might get the e-book of Neuroimaging Research in Geriatric Mental Health from the publisher to make you much more enjoy free time.

Gertrude Ponder:

As a scholar exactly feel bored to reading. If their teacher asked them to go to the library or to make summary for some publication, they are complained. Just little students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Neuroimaging Research in Geriatric Mental Health can make you feel more interested to read.
