This carefully crafted ebook is formatted for your eReader with a functional and detailed table of contents. The 1918 flu pandemic (January 1918 – December 1920) was an unusually deadly influenza pandemic, the first of the two pandemics involving H1N1 influenza virus. It infected 500 million people across the world, including remote Pacific islands and the Arctic, and resulted in the deaths of 50 to 100 million (three to five percent of the world's population), making it one of the deadliest natural disasters in human history.

This book has been derived from Wikipedia: it contains the entire text of the title Wikipedia article + the entire text of all the 191 related (linked) Wikipedia articles to the title article. This book does not contain illustrations.

e-Pedia (an imprint of e-artnow) charges for the convenience service of formatting these e-books for your eReader. We donate a part of our net income after taxes to the Wikimedia Foundation from the sales of all books based on Wikipedia content.
