Dr. Robin Kay is the youngest professor at her university and she did not get there by lacking in ambition. When an archaeological dig in Siberia unearths something new, she is called on to study the pieces of DNA. But the deeper she goes into the genetic material, the more she realizes she is dealing with something completely new. A species not from Earth.

Driven by ambition and curiosity, Robin defies her superiors and the ethics board to give the species new life. Now, the clock is ticking. At any moment, the authorities could discover what she has done. Who she has created. But the greatest danger may not come from outside the lab, but within it. Because Dr. Robin Kay did not create an it. She created a he.
