Blaeu: Atlas Maior

Joan Blaeu, Peter van der Krogt

Blaeu: Atlas Maior Joan Blaeu, Peter van der Krogt
Three and a half centuries before Google Maps there was...
Joan Blaeu's atlas, the finest ever published

The **finest and most comprehensive baroque atlas** was Joan Blaeu's exceptional *Atlas Maior*, completed in 1665. The original 11-volume Latin edition, containing 536 maps, put Blaeu ahead of his staunch competitor, mapmaker Johannes Janssonius, whose rivalry inspired Blaeu to produce a grandiose edition of the largest and most complete atlas to date. Covering Arctica, Europe, Africa, Asia, and America, Blaeu's *Atlas Maior* was a **remarkable achievement and remains to this day one of history's finest examples of mapmaking.**

This reprint is made from the **National Library of Vienna's** complete, colored, gold-heightened copy, thus assuring the best possible detail and quality. The book's introduction, by the University of Utrecht's **Peter van der Krogt**, discusses the historical and cultural context and significance of the atlas; Krogt also provides detailed descriptions of the maps, allowing modern readers to fully appreciate Blaeu's masterwork.

Text in English, French, and German
