Elementary Differential Equations and Boundary Value Problems 10e Binder Ready Version + WileyPLUS Registration Card William E. Boyce, Richard C. DiPrima

This package includes a three-hole punched, loose-leaf edition of ISBN 9781118157381 and a registration code for the **WileyPLUS** course associated with the text. Before you purchase, check with your instructor or review your course syllabus to ensure that your instructor requires **WileyPLUS**.

For customer technical support, please visit <http://www.wileyplus.com/support>. **WileyPLUS** registration cards are only included with new products. Used and rental products may not include **WileyPLUS** registration cards.

The *10th edition* of *Elementary Differential Equations and Boundary Value Problems*, like its predecessors, is written from the viewpoint of the applied mathematician, whose interest in differential equations may sometimes be quite theoretical, sometimes intensely practical, and often somewhere in between. The authors have sought to combine a sound and accurate (but not abstract) exposition of the elementary theory of differential equations with considerable material on methods of solution, analysis, and approximation that have proved useful in a wide variety of applications. While the general structure of the book remains unchanged, some notable changes have been made to improve the clarity and readability of basic material about differential equations and their applications. In addition to expanded explanations, the *10th edition* includes new problems, updated figures and examples to help motivate students. The book is written primarily for undergraduate students of mathematics, science, or engineering, who typically take a course on differential equations during their first or second year of study. The main prerequisite for reading the book is a working knowledge of calculus, gained from a normal two or three semester course sequence or its equivalent. Some familiarity with matrices will also be helpful in the chapters on systems of differential equations.

From reader reviews:

William Boehme:

Nowadays reading books be than want or need but also get a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book which improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want send more knowledge just go with education and learning books but if you want truly feel happy read one together with theme for entertaining including comic or novel. Often the Elementary Differential Equations and Boundary Value Problems 10e Binder Ready Version + WileyPLUS Registration Card is kind of guide which is giving the reader unpredictable experience.

Wendell Nadeau:

Reading a reserve tends to be new life style within this era globalization. With looking at you can get a lot of information that could give you benefit in your life. Using book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their reader with their story or perhaps their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors nowadays always try to improve their ability in writing, they also doing some exploration before they write for their book. One of them is this Elementary Differential Equations and Boundary Value Problems 10e Binder Ready Version + WileyPLUS Registration Card.

Denise Church:

A lot of book has printed but it differs. You can get it by online on social media. You can choose the top book for you, science, comedian, novel, or whatever by means of searching from it. It is named of book Elementary Differential Equations and Boundary Value Problems 10e Binder Ready Version + WileyPLUS Registration Card. Contain your knowledge by it. Without making the printed book, it could possibly add your knowledge and make an individual happier to read. It is most important that, you must aware about publication. It can bring you from one location to other place.

Moses Bean:

Reading a book make you to get more knowledge as a result. You can take knowledge and information originating from a book. Book is created or printed or created from each source that filled update of news. In this modern era like currently, many ways to get information are available for anyone. From media social like newspaper, magazines, science book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Ready to spend your spare time to open your book? Or just searching for the Elementary Differential Equations and Boundary Value Problems 10e Binder Ready Version + WileyPLUS Registration Card when you essential it?
